Subject index

Adrenalectomy
Endoscopic treatment of large primary adrenal tumours, 719

Anal canal
Anal intraepithelial neoplasia, 277
Intra-anal and rectal application of L-erythro methoxamine gel increases anal resting pressure in healthy volunteers, 1539
Malignant transformation of high-grade anal intraepithelial neoplasia, 1133
Patterns of local disease failure and outcome after salvage surgery in patients with anal cancer, 605
Postdefaecation pain syndrome after circular stapled anopexy is abolished by nifedipine, 208
Salvage reoperation for complications after ileal pouch–anal anastomosis, 748

Anatomy
Anatomical orientation and cross-checking – the key to safer laparoscopic cholecystectomy, 663
Anatomical variation at the saphenofemoral junction, 322

Aneurysm
C5 complement inhibition attenuates shock and acute lung injury in an experimental model of ruptured abdominal aortic aneurysm, 1227
Cardiac troponin I predicts outcome after ruptured abdominal aortic aneurysm repair, 824
Cost-effectiveness of endovascular abdominal aortic aneurysm repair, 960
Decision-analytical model with lifetime estimation of costs and health outcomes for one-time screening for abdominal aortic aneurysm in 65-year-old men, 976
Genotype–phenotype relationships in an investigation of the role of proteases in abdominal aortic aneurysm expansion, 1371
Implications of screening for abdominal aortic aneurysms on surgical workload, 171
Matrix metalloproteinase 8 (neutrophil collagenase) in the pathogenesis of abdominal aortic aneurysm, 828
Mid-term results of endovascular repair of abdominal aortic aneurysm, 925
Primary aortoenteric fistula, 143
Quantification of mortality risk after abdominal aortic aneurysm repair, 1092
Randomized clinical trial of vertical or transverse laparotomy for abdominal aortic aneurysm repair, 1208
Screening for abdominal aortic aneurysm in a geographically isolated area, 984
Systematic review of recent evidence for the safety and efficacy of elective endovascular repair in the management of infrarenal abdominal aortic aneurysm, 937
Trends in mortality and hospital admission rates for abdominal aortic aneurysm in England and Wales, 1979–1999, 968
Validity of the Glasgow Aneurysm Score and the Hardman Index in predicting the outcome after ruptured abdominal aortic aneurysm repair, 570

Anus
Comparison of the effects of nitric oxide donors and calcium channel blockers on the intrinsic myogenic tone of sheep isolated internal anal sphincter, 1263
Long-term results in patients with T2-3NO distal rectal cancer undergoing radiotherapy before transanal endoscopic microsurgery, 1546
Quality of life assessment in patients with chronic anal fissure after lateral internal sphincterotomy, 881
Randomized clinical trial comparing oral nifedipine with lateral anal sphinterotomy and tailored sphincterotomy in the treatment of chronic anal fissure, 403
Stapled transanal rectal dissection for obstructed defaecation and evidence-based practice, 793

Aorta
C5 complement inhibition attenuates shock and acute lung injury in an experimental model of ruptured abdominal aortic aneurysm, 1227
Cardiac troponin I predicts outcome after ruptured abdominal aortic aneurysm repair, 824
Colonic epithelial apoptosis during conventional and endoluminal aortic surgery, 443
Cost-effectiveness of endovascular abdominal aortic aneurysm repair, 960

Protective defunctioning stoma in low anterior resection for rectal carcinoma, 1137
Risk factors for anastomotic failure after total mesorectal excision of rectal cancer, 211
Sentinel node detection after preoperative short-course radiotherapy in rectal carcinoma is not reliable, 1533

Rectum – surgery
Medium-term results of vertical reduction rectoplasty and sigmoid colectomy for idiopathic megarectum, 624
Prospective study of the effect of rectopexy on colonic motility in patients with rectal prolapse, 1417

Recurrence
Effective follow-up for recurrence or a second primary cancer in patients with early gastric cancer, 235
Percutaneous thermal ablation for recurrent hepatocellular carcinoma after hepatectomy, 1393
Randomized clinical trial comparing 5-year recurrence rate after laparoscopic *versus* Shouldice repair of primary inguinal hernia, 1085
Recurrence after segmental resection for colonic Crohn's disease, 1143
Surgical management of primary and recurrent retroperitoneal liposarcoma, 246

Renal
Comparison of renal allograft fibrosis after transplantation from heart-beating and non-heart-beating donors, 113
Multivariate analysis of factors associated with renal dysfunction in patients with obstructive jaundice, 1388
Randomized clinical trial of daclizumab induction and delayed introduction of tacrolimus for recipients of non-heart-beating kidney transplants, 681
Randomized clinical trial of the effect of intravenous fluid administration in patients with obstructive jaundice undergoing endoscopic drainage, 39
Subtotal parathyroidectomy with thymectomy for autonomous hyperparathyroidism after renal transplantation, 1282

Screening
Colonoscopic surveillance and clinical genetics services, 1057
Decision-analytical model with lifetime estimation of costs and health outcomes for one-time screening for abdominal aortic aneurysm in 65-year-old men, 976
Implications of screening for abdominal aortic aneurysms on surgical workload, 171
Lower gastrointestinal symptoms are not predictive of colorectal neoplasia in a faecal occult blood screen-positive population, 478
Screening for abdominal aortic aneurysm in a geographically isolated area, 984

Small intestine
Effect of orthotopic small bowel transplantation on mineral metabolism in an experimental model, 764

Sphincter
Comparison of the effects of nitric oxide donors and calcium channel blockers on the intrinsic myogenic tone of sheep isolated internal anal sphincter, 1263
Quality of life assessment in patients with chronic anal fissure after lateral internal sphincterotomy, 881
Randomized clinical trial comparing oral nifedipine with lateral anal sphinterotomy and tailored sphincterotomy in the treatment of chronic anal fissure, 403

Spleen
Use of hepatectomy and splenectomy to treat hepatocellular carcinoma with cirrhotic hypersplenism, 334

Stent
Effect of preoperative biliary stenting on immediate outcome after pancreaticoduodenectomy, 356

Stomach
Gastrointestinal complications after cardiac surgery, 326

Stomach – cancer
Clinical significance of mucin phenotype, ß-catenin and matrix metalloproteinase 7 in early undifferentiated gastric carcinoma, 454
Detection of sentinel nodes and micrometastases using radioisotope navigation and immunohistochemistry in patients with gastric cancer, 886
Effective follow-up for recurrence or a second primary cancer in patients with early gastric cancer, 235
Gastrectomy with extended lymphadenectomy for primary treatment of gastric cancer, 5
